

## VORLI FACT SHEET

### **Product**

VORLI (AI-native language platform)

### **One-line**

Closes the speaking gap with 90-second speaking missions, a lip-synced AI tutor, and a personalized "For You" learning feed.

### **Core features**

- 90-second speaking missions (production under pressure)
- Lifelike AI tutor with real-time lip-sync
- "For You" adaptive learning feed
- Point & Learn (camera-based contextual learning)
- CEFR-aligned progress + confidence signals (not streaks)

### **Learning focus**

Speaking confidence through frequent, short output practice (not just recognition).

### **Global**

- Interface available in 50 languages
- Architecture built to support 100+ learning languages

### **Platforms**

Built for iOS and Android (shipping in waves). Do not state "Available now" unless a live store link exists.

### **Founder**
